3 hr in cave (Snow Ball Route 1 trip

10 hr in cave (Monument Hall Route 2 trip

13 hours in cave (3 trips

at 8:30 a.m M.A. Moore & I started in the cave to work a shot in Roes Misery. We drilled the hole about six inches & then went to get some specimen. I took the sledge with me to work out the passage while M.A. Moore got some specimens near Devil's Look out. We come out to get some dinner at 1:30 P.M. We went in and finished the the hole in Roes Misery in the afternoon, starting in at 2:00 P.M and returning at 7:00 P.M. at 20 P.M. we started in the cave with the intention of getting some quartz crystals & went on the Snow Ball Route. M.A. Moore discovered a pocket of Fairies Palace Crystals near former discovery of mine. I discovered three or four Blanket ledges of Wind Cave Marble near the bottom of the deep well and got a fine quartz crystal at the right of the path just before we enter Snow Ball Room but about 10 feet below it. The wind started out of the cave this evening, the first time for 5 days
