Subject: GGNRA General Management Plan
Date: Monday, May 26, 2014 11:57:30 PM
Importance: High

Please do not sign off on the current form of the GMP.

The Golden Gate National Recreation Area (GGNRA) is an URBAN RECREATION AREA. The GMP is a deeply flawed document which among many things, predetermines where dog walking access may occur BEFORE the Dog Management plan is finalized. The process for the Dog Management plan has been compromised.

We do not want the GGNRA to predetermine where dog walking access can occur without due public process. These are public lands and the GGNRA and the National Park Service need to listen to us, the public. The entire community should have the opportunity to participate in this important decision.

This is a welfare issue more than a natural lands preservation issue.

Good faith is undermined by this attempt to push this through.

Yours very truly,
-Margory Cohen

Sonoma County, CA
