Subject: follow up about the gmp language and tome line

hi frank,

it is my understanding that the ggnra may have made language changes to the draft final general mgt. plan. if this is accurate, we would like to know immediately what the changes are or what the proposed language changes are. the ggnra is located on public lands and as members of the public we are deeply concerned about your accountability towards the public and writing language that is not acceptable by the public. again, we do believe that a supplemental eis is warranted for the gmp.

in addition, pls let us know when you think you will be signing the gmp even though many thousands of people are very opposed to the current version of the gmp. we have a right to know this information.

the [change.org](http://www.change.org) petition has over 7,000 signatures and there are over 2,000 signatures on paper opposing the gmp as currently written.

<https://www.change.org/p/president-barack-obama-access-to-the-golden-gate-national-recreation-area-is-in-jeopardy>

pls advise as soon as possible.
