Subject: GGNRA - Please Slow Down the General Management Plan
Date: Tuesday, May 27, 2014 12:50:27 PM

Dear Ms. Lehnertz:

The NPS-GGNRA staff needs to slow down the drive to limit recreation, and the use and enjoyment of GGNRA lands. I understand that there are 3 separate plans to limit access to the GGNRA lands. This needs to be stopped until there is adequate time to receive public input on the plan. It is unfair and wrong to approve these plans without a meaningful public process involving those affected. One that takes the public input into account. All prior steps have ignored those who use the land and have used the lands for many years. For a city with more dogs than children, limiting or restricting access to GGNRA lands for dogs and others is not appropriate. People and nature are not incompatible. These are beaches and trails where people have been welcomed for more than 40 years into the GGNRA. There is no credible reason to start denying access now.

Best Regards,
Edward Deibert
Bay Area Resident since 1997
