---

You have a good weekend too

Thanks Martha

hi chris,

well, you are the one who has the busier schedule than i so let me know of some dates or times that would work for you.

and yes, i heard many earfuls tonight about the meeting this afternoon with the save our recreation folks. this is very tense.

you have really entered a hornets nest. and it is not easy, but important.

oh boy.

martha

Hi Martha,

Thanks for your time too - I know it's a commitment of your schedule. I look forward to keeping the dialog open. I would be happy to visit with you on this

other topic, as I have heard it alluded to a couple of times and don't know the root or origin. Would appreciate your perspective.

We met with Andrea Buffa and others this afternoon, and I hope we can all keep talking. Not easy. Important.

thanks!

Chris

Chris

hi chris,

many thanks for taking the time to talk with us today.

we all greatly appreciated your willingness to listen and ask the right questions.

there is an elephant in the room that was not discussed today and that is the ggn parks conservancy and their impact/influence on the ggnra and the divergence from recreation in this urban recreation area.

a couple of folks alluded to it last night at the muir woods meeting and how much muir woods has changed over the years. we are seeing this influence/impact in areas of the ggnra too.

so, when you have a moment to catch your breathe on this issue, i would like to talk to you about it.

we can speak by phone if that is more convenient for you.

again, many thanks for taking the time to get our perspective on the gmp and dmp issues.
