---

hi chris,

thanks for the quick response.

i will contact frank directly about this issue.

martha

Hi Martha,

Thanks - got your message. I'm in Charleston SC today and just dashing to an event. Frank and I are coordinating.

Be well.

Chris Lehnertz, Regional Director  
National Park Service  
Pacific West Region

hi chris,

i just spoke with karen washington from your office.

she suggested that i email you and frank.

i am trying to figure out what the status of the ggrna's general mgt. plan is at this point in time.

when we last spoke in late july, 2014, you said that you were going to work with frank in possibility "aligning" the gmp, dmp and the rancho trails plans.

i am aware that there is an open house on tuesday, oct. 28th that the ggnra is hosting at ft. mason but i am very concerned (as you know) that the gmp needs a lot more work, the ggnra host community and planning workshops that include the public's input. after all, we are in the NEPA process. the 1980 gmp was the direct result of many months of planning workshops or charrettes and the document reflects the public's input.

i also sent you and frank a link to our latest video which addresses these issues and

identifies some possible viable, road tested solutions. i hope that you have had an opportunity to look at it.

thanks again for your time as i know that you are extremely busy.

best regards,

martha walters
