Hello folks,

Jan Blum left me a voice mail yesterday at noon reinstating her previous request for a 1/2 hr. meeting with Frank, her, and several other members of the Environmental Community to discuss their feelings and where they stand on the issue. Any qualms with me setting it up?

Thanks!

Lori Furtado

Hi All,

Attached is a summary of the rationale for opposition to CDW in the Presidio. Please feel free to contact me for further details on any point. Please feel free to share this information.

PAR wants our reasoning on CDW prior to Feb 4 (see message fr Ray Holland, below), and I believe NAPP wants the same before the 6th so they can re-present to their Boards. Matt can you share the Audubon letter with them?? Or can you bullet point summarize the contents for me and I can forward to each???? Please advise soonest as this is an opportunity we do not want to miss. All other ideas welcomed and encouraged!!

Jan:

Thanks for letting us know that, as a result of your meetings with the Trust's leadership, the period for public review and comment on its commercial dog walking public use limit has been extended for

another thirty days.

As you may know, the position on that issue adopted by PAR's Board of Directors on January 7th (when the deadline for public comments was still January 25th) has already been conveyed to the Trust along with its reasoning. A copy is attached to this message.

In your message to Karen Cook, you asked that the Trust "postpone establishing any new regulations prior to the Park Service completing their Federal due diligence processes" but without providing any reasoning.

Since that means there would still be no regulation of either commercial or recreational dog walking on the Presidio and other portions of the GGNRA in San Francisco until at least April of 2014, would you please provide me with the reasoning for your request so I can share it with PAR's Board of Directors before its next regular meeting on February 4th (the last before the new deadline date of February 25th) in case it wants to reconsider the position it adopted on the 7th of this month?

Thanks.

Ray

Jan--You are very welcome. This is also to let you know that we will extend the comment period

for the proposed regulation to February 25th as requested. We have already posted notice of the extension on our website:

<http://www.presidio.gov/about/Pages/commercial-dog-walking.aspx> and it will also appear in the Federal Register, although, because of their required lead time, not until next week after the expiration of the original comment period. I would appreciate your passing that information along to Ruth, Matt and Ralph and anyone else with whom you are in contact who is interested in this issue.

Dear Craig and Karen:

You were very generous with your time this past week when Matt, David, Ruth and I were in your lovely, restored Barracks to discuss the Commercial Dog Walking issue. We all appreciated your reception to our ideas and your close attention to our suggestions.

It is our hope that the Presidio Trust will postpone establishing any new regulations prior to the Park Service completing their Federal due diligence processes.

Sincerely,

Jan Blum
