Subject: GGNRA - Please implement the GMP
Date: Tuesday, May 27, 2014 1:16:24 PM

Dear Ms Lehnertz,

I am a San Francisco resident and have heard much about the General Management Plan proposed by NPS in consultation with others.

I also hear much vocal opposition to this plan from one particular group - dog walkers and dog owners.

Please do not be swayed by their strident and well organised criticism. Putting the grease on the squeaky wheel is not good management, even if it's common in politics.

You have done much work to make this a well thought-out and practical plan. There are many of us who would enjoy these areas more if it were not for the disturbance of dogs. Our children deserve to be safe in these areas when walking through them and enjoying the beach. They ought to expect a clean and hassle-free environment. Having off leash dogs, and even dogs "on leash" but not under control is a hazard to our children, as well as damaging to wildlife.

Please implement this plan forthwith, and make the GGNRA a better place for all citizens of the bay area, and safe for wildlife. Don't be swayed by a vocal minority.

thank you for all the hard work,

yours truly.

Adrian Wadley
