Howard,

2 Federal Register notices are published for EISs. One in the EPA part of the document. A second in the NPS section. The 30-day waiting period begins with the notice published by EPA which appeared on Friday, April 25. By my count, the ROD could be signed on Monday, May 26. Martha is counting from the date the NPS notice appeared on Wednesday, April 30. That's a common mistake. Of course, we are not compelled to take any action on day 30.

Steve: can you confirm that?

Thanks,

Brian
