

Namekagon River Map & Checklist

Map 2: Hayward to Trego

This river map provides information for the 29 mile section of the Namekagon River between the towns of Hayward and Trego. This checklist will help you to have a safe and enjoyable trip!

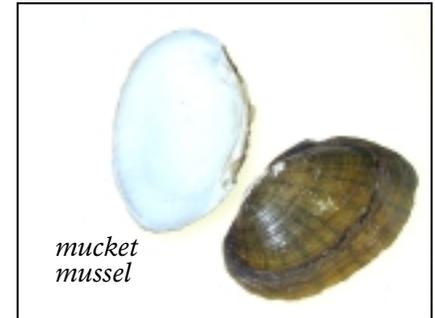

Personal Floation Devices (PFDs) are required onboard for each passenger on all vessels. **Children under the age of 13 must wear a properly fitting PFD** while in moving vessels.

Water levels change. It is dangerous and **illegal to jump from bridges, cliffs or trees** into the river.

Open fires are permitted only in steel fire rings or grills. Dead and down wood may be collected for firewood except from islands. Fires must be out and ashes cold before you leave the area.

Camping is permitted in designated sites only. There is a one night limit at each site. Most campsites accommodate 3 tents. Group sites accommodate up to 6 tents.

Primitive toilets are available at campsites and landings. At areas without toilets on the river, bury human waste 6 inches deep and at least 100 feet away from river and campsites.

It is illegal to collect or disturb freshwater mussels or their shells.

Avoid **overhanging trees** that are in the water. They can overturn a canoe and trap canoers underwater.

Rapids on this stretch of river are Class I, the easiest class. Spring visitors should be prepared for higher water levels and protect against hypothermia.

Deer ticks found along the river can carry Lyme disease. Check often for ticks and know the symptoms of the disease.

Drinking water is provided at some landings. See reverse for locations. River water must be treated to protect against giardia.

Carry out all trash. Bring trash bags with you.

Glass beverage containers are prohibited at the Riverway.
