Subject: Signing Party for the GOGA GMP
Date: Friday, February 13, 2015 9:58:23 AM

Nancy and Brian

Awesome. Our planning endeavor is done and GOGA has guidance for the next 20 years. With Nancy having worked on the first and second GMP means she has influenced park management at GOGA for the last 34 years and now for 20 more years. That is a very impressive legacy. (We should replace Burton's statue with one of Nancy.)

Thank you for sending the picture. It reminds me of the amazing thoughtful discussions, visions, and ideas (and arguments) that the park staff and planning team engaged in and documented. There was a great deal of talent that lead to a finished product. More importantly, I walked away from this assignment with many life long and close friends.

The staff in the attached picture were the leaders of this success. In addition, the knowledge and leadership skills of Kerri Cahill, Sarah Bodo, Patrick Malone, Craig Kenkel, Brian O'Neil, Frank Dean were critical to success. I have learned from each of you. Thank you Nancy and Brian for successfully guiding the GMP to a finished product. Terrific. Stephan

ps. Can I have two signed copies?
