---

Tom,

Thank you for making us a couple of copies of the final. I'll look for them in a few days.  
Last loose end: Howard and Frank are working on the letter. Thanks for holding space.

We will remain hopeful about getting clearance to print without another WASO briefing. It's encouraging to see how all our hard work this year has us AHEAD OF SCHEDULE. Looking for some wood to knock.

Brian

Hi Brian, Nancy, and Martha:

Yesterday we received printed copies of the GOGA GMP from the printer, and today I will send the region and the park two copies each (even though you probably need just one).

These copies are coil bound--i.e., not perfect bound, like the final GMP that we will release to the public in the near future (we hope!).

Additionally, the park plans to include a letter from Frank Dean in the final GMP. The versions I will send today do not include this letter since we have not yet received it.. Let's finish that up quickly so that we can include the letter in the final GMP.

I will hold off sending WASO (Carol Cook/Patrick Gregerson) their 2 copies until the transmittal memo is complete. The park is currently reviewing a draft of that and other materials. Once they have finished any revisions, I think it just needs to be added to PWR letterhead.

Thanks,  
Tom
