Subject: follow up regarding the GMP
Date: Monday, January 05, 2015 6:33:02 PM

hi there frank,

i hope you had a good holiday.

just wanted to get a sense about the status of the GMP.

will the ggnra be making any changes to the document and if so, what changes would that consist of and would these changes be subject to additional public comment?

as you are aware, cfdg believes that the GMP is a seriously flawed document and warrants a supplemental EIS.

i look forward to your reply.

happy new year,

martha walters
