Hi Alan:

Here's a heads-up that **the EPA should publish their notice of filing in the Federal Register next Friday, April 25th.**

I didn't want to send out a heads-up until we had received the printed GMPs. They arrived at DSC this week and we have a plan to mail them out (both hardcopies and CDs) early next week.

Jennifer Stein has been designated as the official "e-Filer" for the DSC Division of Planning. (There may be others, but it's my understanding that Jennifer is handling filing at least for those planning projects in the PWR.) **Jennifer will file this afternoon or early tomorrow. Jennifer or I will follow up with you tomorrow, once we have a confirmed date for the EPA notice.**

Our publications crew is currently preparing the document files in the proper format for uploading. Tomorrow or soon thereafter Susan McPartland will upload the document files to the PEPC site.

In short, everything seems to be moving very smoothly!

As you offered, please coordinate release of the NPS NOA. Thank you very much for all

of your help. Please call if you have any questions or concerns.

Take care,
Tom

Howdy folks, i have this afternoon (minutes ago) received confirmation from OES via our NPS FR Coord that the NOA is cleared for publication.

After the document has been printed, please advise as to when you undertake the EPA eFiling process (typically concurrent with loading all the files onto PEPC for public release). As soon as you have a confirmed date for EPA publishing their notice of filing in the FR (on a Friday), i'll "release" our NOA so that it publishes a day or so after the EPA notice, thanks, alan

howdy Brian & Co., so far there is no OES approval indicated on DTS, i have a call in to our FR Coord.

In any event and as mentioned before, when i get confirmation of NOA clearance i will "hold" the pkg until the document is printed and the park has

completed the eFiling process and has confirmed EPA publication date (for their official notification of start of no-action period).

Thanks Chris for "heads up", alan

Good morning Brian, I hope you are staying dry. I talked to the Secretary's office this am. and they said they cleared the surname package late Friday and sent it to the NPS federal register office. It is cleared to go. You should be hearing from Alan shortly.
