I have a **suggestion** based on conversation Chris had with Martha about "aligning" plans.

The Dog Management Plan and Rancho Corral de Tierra planning will remain separate and distinct from, **yet aligned with** the GMP. More detailed planning for Rancho, including long term planning for trails, **may [Delete: will]** begin later in 2015. The schedule for that has not been determined, but it will include a strong public involvement component and we look forward to engaging all interested and affected individuals and organizations in that **[Delete: multi-year]** process.

draft:

Hi Martha, I am getting back to you in response to your email to Chris Lehnertz and Frank Dean regarding status of the GMP and your video.

We have seen the video that you sent the link for. Regarding the status of the GMP, we do not yet have a timeline for completion of the Record of Decision.

The Dog Management Plan and Rancho Corral de Tierra planning will remain separate and distinct from the GMP. More detailed planning for Rancho, including long term planning for trails, will begin later in 2015. The schedule for that has not been determined, but it will include a strong public involvement component and we look forward to engaging all interested and affected individuals and organizations in that multi-year process.

I hope all is well with you,
