Subject: Re: April 30th Presentation Briefing time adjustments
Date: Saturday, April 25, 2015 4:28:19 PM
Attachments: (b)(5)

Hi all,

Following our rough run thru on Friday, the timeline agenda was adjusted slightly to accommodate changes by consolidating one block for LE and one large block, post lunch, for Environmental Process. Also allowing for Chris's thoughts/comments, we may go until 5PM for full day participants.

Note: It will also require some key NR/PLng folks to be available for 3-4PM rule review as we look at key areas of: Muir and Ocean (coastal beaches), Crissy and Funston (front-country), and Headlands/Rancho (backcountry) as illustrative of applying different core principles.

Appreciate your flexibility in deepening Chris's understanding.

Mike
