**Subject:** GGNRA General Management Plan  
**Date:** Sunday, May 25, 2014 3:54:37 PM

---

Dear Ms Lehnertz:

My name is Bill Bechtell, and I am president of the Montara Dog Group. As you know, I and many others have made detailed comments on the GGNRA's General Management Plan, Dog Management Plan, and Trail Management Plan for Rancho Corral de Tierra. Unfortunately, the GGNRA has not taken our comments seriously. GGNRA officials seem to be intent on treating the GGNRA like a national park instead of like the recreation area envisioned by congress in their enabling legislation. Instead of facilitating recreational opportunities in the GGNRA, the current plans under consideration seriously diminish recreational opportunities.

Of immediate concern is the final General Management Plan (GMP) currently before you for approval. This GMP presupposes conclusions from the Dog Management Plan (DMP) and Trail Management Plan (TMP) being prepared by the GGNRA. This is totally inappropriate and undercuts the NEPA legal process. I urge you not to approve the GMP until the NEPA process for the other plans is concluded, or at least direct the GGNRA to consider the three plan together in a coordinated manner.

Thank you for your consideration.

Bill Bechtell
