Nancy,
Finished call with Tom.
The 3 items we have are the ROD comments, final mailing list, and decision about a postcard announcing the FGMP.

Most time-sensitive is the postcard. Denver doesn't think we **need** one. I'm on the fence. Nice to wrap up the process. Also tell people where to get the document online, a summary will be available by request (?), timeline and purpose of the ROD.

Talk Monday. (b)(6).
May not see you tomorrow but plan to keep my morning meetings at Muir Woods.

Subject: GOGA GMP: notes from 3/13/14 call with Brian

Hi Brian:

Thank you very much for making time today to discuss next steps (e.g., notices, e-filing, comments on the ROD, signing of the statement of findings, etc.),
(b)(6).

Attached are notes from today's call. Ray used the rough notes that I provided earlier as a starting point and typed in red any decisions that we arrived at today. Everything should be straightforward, but let me know if you have any questions.

Tom
