Subject: Deep concern with the GGNRA's General Management Plan
Date: Tuesday, May 27, 2014 6:32:07 PM

Dear Director Lehnertz,

I am writing to express my deep concern with the GGNRA's General Management Plan. I ask that you delay signing the document in its present form and immediately call for a Supplemental EIS in order to address concerns of the stakeholders and gateway communities.

The new GMP is not only a radical departure from the GGNRA's enabling legislation, but it was also born out of an insufficient and failed process that only generated and considered a few hundred public comments. We need a real, meaningful public process that asks for and considers input from ALL stakeholders. The GGNRA belongs to us, the taxpayers, and we must have a process that solicits and considers our input on such a major public land issue.

Thanking you in anticipation,

Stuart Moulder
