Hi Brian,

(b)(6)

From last Friday's GMP meeting, here are the decisions and tasks we need to accomplish during the first review period. It would also be great to sit down with you and discuss your expectations in terms of schedule.

Decisions/clarifications:

1. High priority: Confirm audience and number of copies to be printed.
2. High priority: Finalize content for "General Guidance" section – is there anything that can be eliminated to reduce page count?
3. Should the "Foundation Statement" section be deemphasized (currently full color spreads with a lot of photos)?
4. Should the "Management Zone" section be emphasized in a more graphic way?
5. Should the "Park Sites" section be broken up into 5 separate chapters with a big photo divider page for each?
6. Should the cost estimates be eliminated? They could also be simplified – eliminate 2009 dollars so they will be relevant to the future.

Tasks:

1. Write draft of "A Guide To This Document"
2. Letter from Frank Dean (if audience is wider)
3. Review introduction and confirm organization – It would be helpful to have a statement to introduce the Foundation Statements, Guiding Principles, Management Concepts and how they relate
4. Crosscheck that correct information has been pulled from FGMP
5. Any other edits to content/structure of the overall document.

Let's talk when you're back in the office. Feel free to let me know if you have any questions.

Thanks and get well soon!

Camey
