Subject: GGNRA - GMP is okay with me
Date: Tuesday, May 27, 2014 2:00:05 PM

Just wanted to provide a counter point to the possible barrage of emails that might be received today regarding the GMP for GGNRA.

I live in San Francisco and am a frequent visitor to several of the GGNRA sites. In general, my "visitor experience" is negatively impacted by the current god walker/owner usage of those sites. I'm all for more dog restrictions and/or enforcement of existing restrictions. The GMP appears to be a reasonable plan and per my usage of the GGNRA would positively impact my future usage and experience.

Thank you,
David Stobb
