Nancy,

Were you told by anyone about item 3 on this agenda? This is supposed to be a short presentation highlighting changes only in San Francisco in the new GMP. My estimation of time would be 15 minutes. I would think the work being done from Sloat to 48th and Geary would be an item. It has been previously discussed so it is only a matter of showing the change in thinking about the corridor — as in "this is as far as we got in 1980 and this is how our planning for this area has evolved." Another would be reuse of the Octagon House at West Ft Miley. Another would be consideration of a group camping area at East Ft Miley. If something comes up requiring real discussion I would schedule it as a separate topic for a later meeting. It would not include anything in the Trust area of the Presidio since we deal with those all the time. It would end where SAFR begins.

Is this OK? Can you come to the meeting? It is this Wednesday morning. We can put the item on any time you like.
