Director Lehnertz,

I live in Homestead and have become aware of an urgent situation that you control. I am emailing you today to express concern with the GGNRA's General Management Plan. ***I ask that you delay signing the document in its present form*** and immediately call for a Supplemental EIS in order to address concerns of the stakeholders and gateway communities.

The new GMP is a departure from the usual GGNRA's enabling legislation. It was a result of an insufficient and failed process that only generated and considered a few hundred public comments.

We need a real, meaningful public process that asks for and considers input from ALL stakeholders.

The GGNRA belongs to us, the taxpayers, and we must have a process that solicits and considers our input on such a major public land issue.

Thank you.
