---

Martha and Bill,

We have received your emails and know your concerns about the GMP and the Dog Management Plan. We have not made any final decisions or changes to the GMP at this point and I have no certainty on a timeline. Most of our staff are heading out for the holidays, but I wanted to get back to you before I left for the week.

Happy Holidays,

Frank

Dear Superintendent Dean,

We understand that in a meeting with other GGNRA constituents, you indicated that the General Management Plan will be signed in the near future with some "language changes." The Crissy Field Dog Group continues to object to the implementation of the General Management Plan as we articulated in our letter sent to you in May 2014 which is attached here.

We request an opportunity for the public to review and comment on the proposed "language changes" before implementation as to whether those language changes address the serious flaws in the General Management Plan as written. As you know, all of the local governments impacted by the General Management Plan have gone on record opposing that Plan as written and have urged the GGNRA to work with local government in preserving access for urban recreation. We do not understand how a few language changes could address these fundamental flaws and objections but we look forward to reviewing your proposals.

Please let us know whether you will be providing the public with an opportunity to review and comment on the proposed language changes.

It would be helpful if you could reply to us about this concern in a swift manner.

Thank you,

Martha Walters
