Subject: Please slow down the signing of the GMP - GGNRA - STOP
Date: Tuesday, May 27, 2014 4:00:13 PM

I live in the S.F. Bay Area and I use the parks a lot. I have a National Park Pass and I belong to the National Parks Conservancy. I also volunteer at one of the National Parks in my area. I also have a dog who loves to run. This is an urban area, there has to be some compromise between the different ways of enjoying the parks, allowing some National Parks to be dog and people friendly and some not. Fort Funston, as an example has historically been an off-leash area. The GGNRA was founded to provide recreational opportunities to the people of this region. Now the National Park Service, which was entrusted to protect public access, is trying to eliminate those recreational opportunities one by one nationwide. These are beaches and trails where people have been welcomed for more than 40 years. There is no credible reason to start denying access now.

Please don't sign off on any new plans that could restrict our enjoyment of GGNRA lands.

Thank you.

Julie Starobin
