Things to Do

- The 5-mile (8 km) **Long House Loop** (paved) is great for hiking or bicycle riding, as well as leashed pets, and is wheelchair accessible. Bike racks are provided at trailheads; we recommend you wear helmets and lock your bikes.

- Hike or ride your bicycle to the trailhead for the **Kodak House overlook** (about 2.25 miles [3.6 km] from kiosk on the Long House Loop) or **Long House overlook** (about 1.5 miles [2.4 km] from kiosk on the Long House Loop). Park your bikes at the trailheads, then take short 0.15 mile (0.24 km) walks to the overlooks.

- Have a picnic at one of the shaded tables located near the kiosk, or along the Long House Loop whenever you're ready. Remember: food and drinks (other than water) are not permitted in any of the archeological sites. Crumbs attract burrowing animals which destroy archeological information. Please pack out all trash.

- The **Badger House Community Trail** begins at the kiosk and heads south, gently dropping in elevation. After passing the junction to Nordenskiöld Site #16 trail and crossing the Long House Loop, the trail winds through four mesa top archeological sites. Your walk through this area is a journey through 600 years of prehistory, with signs explaining each site. Round-trip from kiosk via trail is about 2.25 miles (3.6 km).

- The **Nordenskiöld Site #16 Trail** leads to an overlook of the Nordenskiöld Site #16 cliff dwelling. Guided by members of the Wetherill family, Gustav Nordenskiöld photographed and documented many archeological sites and eventually concluded that the modern Hopi and the ancient Mesa Verde inhabitants were closely related. Round-trip from kiosk is two miles (3.2 km); elevation change is about 87 feet (27 m).

Step House - Self Guided

Hike to Step House and explore two separate construction periods in the same alcove: early Basketmaker pithouses built about 620 CE, and a masonry pueblo dating to 1226 CE.

Allow 45 minutes to one hour for the 100-foot (30 m) descent and ascent on a winding path. Total walking distance is about one mile (1.6 km). The loop trail begins near the kiosk. A ranger is available for questions.
