

<b>LIST OF FIGURES .....</b>	<b>VI</b>
<b>LIST OF TABLES .....</b>	<b>VII</b>
<b>1.0 INTRODUCTION.....</b>	<b>1</b>
<b>2.0 ENVIRONMENT, CULTURE, AND ARCHEOLOGICAL RESEARCH IN THE NORTHERN CASCADES .....</b>	<b>3</b>
2.1 Project Environment .....	3
2.2 Environmental History.....	6
2.3 Research Into Indigenous Use of the High Elevation, Northern Cascades Interior...	8
2.4 Pre-contact History of the Project Area.....	10
2.5 Ethnohistoric Background .....	12
2.6 Post-contact History.....	14
<b>3.0 RESEARCH DESIGN AND METHODS.....</b>	<b>17</b>
3.1 A Research Framework for Understanding the Little Beaver Watershed .....	17
3.2 Survey and Inventory Methodology .....	18
3.3 Special Analyses: X-Ray Fluorescence Analysis of Vitrophyre, Electron Microprobe Analysis of Tephra, Radiocarbon Dating of Charcoal.....	19
3.4 Tool Stone Confidence Classes .....	21
3.5 Test Excavations .....	21
3.6 Curation of Project Collections.....	22
<b>4.0 RESULTS OF INVESTIGATIONS.....</b>	<b>23</b>
4.1 Field Survey Results .....	23
4.1.1 45WH631.....	24
4.1.2 45WH633.....	25
4.1.3 IF 117.....	26
4.1.4 IF 119.....	27
4.1.5 Aggregate Sample of All Little Beaver Archeological Sites.....	28
4.2 Tool Stone Sources .....	32
4.3 Minimum Number of Tools (MNT) .....	36
4.4 Results of Excavation at 45WH220.....	37
4.4.1 Test Units.....	37
4.4.2 Artifacts Recovered by Test Unit and Level.....	38
4.4.3 Test Unit Stratigraphy .....	39
4.4.4 Local and Regional Context of Excavation Results.....	41
4.4.5 Radiocarbon Age Estimates.....	42
4.5 Electron-microprobe Identification of Tephra (Volcanic Ash) Sample .....	44
4.6 X-Ray Fluorescence (XRF) of Vitrophyre .....	45
<b>5.0 DISCUSSION OF LITTLE BEAVER WATERSHED ARCHEOLOGY.....</b>	<b>49</b>
5.1 Cultural Chronology of the Little Beaver Area .....	49
5.2 Archeological Assemblages.....	50
5.3 The Geography of Tool Stone.....	51
5.4 Site Geography and the Demography of Travel Groups .....	54
5.5 Summary and Conclusions .....	56
<b>6.0 REFERENCES CITED .....</b>	<b>58</b>

<b>A-1. GLOSSARY OF TECHNICAL TERMS .....</b>	<b>65</b>
<b>A-2. RESULTS OF OBSIDIAN X-RAY FLUORESCENCE ANALYSES.....</b>	<b>68</b>
<b>A.3 RESULTS OF TEPHRA ELECTRON MICROPROBE ANALYSES .....</b>	<b>69</b>

LIST OF FIGURES

Figure 1. Map of Pacific Northwest and the project area..... 1

Figure 2. Map of Little Beaver watershed and vicinity and key geographic locations mentioned in the text. .... 3

Figure 3. Topographic map of Little Beaver watershed vicinity; bolded index contour interval is 500 m; elevation of the index contour outlining Ross Lake is 500 m above mean sea level..... 4

Figure 4. Little Beaver Cr. Valley, facing east, Hozomeen Peaks on the horizon at far left... 5

Figure 5. Geologic map of the project area; map unit boundaries approximate; HT, rocks of the Hozomeen terrain; CB, granitic rocks of the Chilliwack composite batholith; SV, Skagit volcanic rocks; and HV, Hannegan volcanic rocks are yellow. .... 7

Figure 6. Portion of U. S. Boundary Commission Map, 1866, showing the project area and near vicinity. .... 15

Figure 7. Olcott Series biface, 45WH631..... 24

Figure 8. Distal end of Late-style projectile point, 45WH631 ..... 25

Figure 9. General Area of 45WH633, showing moss-covered Hozomeen chert bedrock (backpack on ground provides scale). .... 26

Figure 10. Ribbon bedding of Hozomeen chert at IF 117. .... 27

Figure 11. All Little Beaver archeological resources plotted against elevation and east-west distance in meters ..... 31

Figure 12. Map of all archeological resources inventoried in Little Beaver watershed..... 31

Figure 13. Photographs of dominant tool stone types in project area. upper, Hozomeen chert, Little Beaver gray variety; center, Hozomeen chert, common dk. gray variety; bottom, Hannegan Volcanics vitrophyre, from Copper Ridge..... 34

Figure 14. Test unit 2, 45WH220, description of soils and sediments by excavation level (for scale, TU is 1 m wide)..... 40

Figure 15. Scatter plot of Strontium (Sr) vs. Zirconium (Zr) in part per million, of all artifacts in Appendix A-2. Black lines circumscribe the plotted values from 67 vitrophyre source samples from nine outcrops used to define geochemical sources A and B on Copper Ridge (Skinner 1999b:Fig. 3, p.8). Triangles are artifacts, the red square represents a geologic sample (see appendix A-2). .... 45

Figure 16. Map showing Little Beaver watershed sites with artifacts correlated to vitrophyre tool stone source locations; red dots denote artifacts from Source B; blue dots denote artifacts from Source A; purple dot no data; black dots denote sites lacking vitropohyre. ... 46

Figure 17. Outcrop ii, Copper Ridge geochemical source B. .... 47

Figure 18. Regional and local chronological/cultural periods of the Northwest Coast culture area compared with time markers derived from the Little Beaver watershed..... 49

Figure 19. Tool stone source areas in the project vicinity; green is Hozomeen chert; red is Copper Ridge source B; blue is Copper Ridge source A; yellow is Little Beaver watershed. 52

Figure 20. Map plotting assemblages containing Hozomeen chert in green; black dot means Hozomeen chert is absent. .... 53

Figure 21. Map showing inferred dispersal route of Hozomeen chert from the upper Skagit watershed west to the Chilliwack and Nooksack watersheds. .... 53

Figure 22. Map showing inferred dispersal routes of vitrophyre from Copper Ridge source B ..... 54

*LIST OF TABLES*

*Table 1. Skagit River Climate Data ..... 4*  
*Table 2. Archeological Resources Inventoried in Survey..... 23*  
*Table 3. Projectile Point Metric Data, 45WH631 ..... 25*  
*Table 4. Inventory of Archeological Sites in the Little Beaver Watershed..... 29*  
*Table 5. Artifact inventory, All Archeological Sites in Little Beaver Watershed ..... 30*  
*Table 6. Tool Stone Types by Site in the Little Beaver Watershed ..... 32*  
*Table 7. Tool Stone Identification Confidence Levels for Little Beaver Site Sample ..... 33*  
*Table 8. Description of Test Unit 2 Deposits by Excavation Level, 45WH220..... 41*  
*Table 9. Radiocarbon Age Estimates From Site 45WH220..... 43*
